

## TENNderCare Connection

The [Bureau of TennCare](#) remains committed to the coordination of school-based medically necessary services and maintains a close working relationship with the Department of Education to ensure coordination of the care and the delivery of medically necessary services to school age children. The [TENNderCARE Connection Process](#) defines the responsibilities of TennCare, the MCOs and school personnel to coordinate the delivery of medically necessary services identified in the IEP plans of students with special needs in an educational setting. To learn more about this process and download documents specific to it, visit the [TENNderCARE Connection](#) links on the TENNderCARE website.
